Claim Rejections - 35 USC § 112

Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, "in at least one their ladder rungs" is ambiguous and indefinite.

In claim 8, there is no structural basis for reciting "the circumference".

In claim 9, there is no antecedent basis for "the fixing devices".

Claim 10 is not understood.

Claims 11 and 12 are indefinite as they constitute method claims which depend from apparatus claims. These two types of claims constitute two different statutory types of inventions and cannot depend from each other. They will be addressed as best understood. Additionally, in claim 12, there is no antecedent basis for "the groove".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3,9-11 and 13 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Damiano.

See ladder members 12 having vertical members 19 and rungs (unnumbered), carrier member 16, cross slats 14 and fixing devices 30.

Allowable Subject Matter

Claims 4-8 and 12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's remarks concerning the restriction are persuasive and such has been withdrawn. All claims have been addressed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
